

## **Barrhill Community Benefit Carrick Futures Small Grants £50-£1000**

Small grants of £50 to £1000 are available for projects, which bring benefit to the residents of Barrhill's Community Council area (see Guidance notes on website) and are administered by the Community Council.

Grants cannot be used for personal gain but should help to improve the quality of life for residents within our community.

It is expected that the grant will cover most, possibly all, of the project costs. Barrhill Community Interest Company will administer higher value projects.

Community groups may apply to fund specific projects such as those that bring an improvement to amenities, activities or the groups' ability to be sustainable. An application form is available from any Barrhill Community councillor.

Suggestions for suitable projects are also welcome from residents and may be made by writing, by email or in person at a Community Council Meeting.

### **Applications should be made a week prior to a Community Council Meeting.**

During the week, a sub-committee of councillors will consider applications and further information might be requested or suggestions made. The sub-committee will then make their recommendation to the Community Council.

The decision of the Community Council will be final.

### **First Funding rounds for Financial Year 2025/2026**

<b>Application Deadline</b>	<b>Community Council Meeting</b>
